Message from the Executive Director

In 2016, CFSJ continued the steady growth that we have experienced since our 2009 launch. Our funds under management and our grants and contributions both grew. This growth is due to a combination of our assets increasing and impact. We value the partnership our board has forged with our membership, local foundations, and our support of end of collaboration with key people and experiences in our region, and it is increasing the impact of funds' donor generosity.
